Deputy General Manager
Wackenhut Services, Inc.**REQUEST FOR WSI SUPPORT DURING NON-CLOSURE CONSTRUCTION
ACTIVITIES - SRK-205-94**

Ref: S. R. Keith ltr (09125) to M. L. Anderson, Request for WSI Support During Non-Closure Construction Activities, August 31, 1994

Action: Written Concurrence by October 3, 1994

Construction of a vehicle access gate at Portal #3 (Building 792) will begin October 1995 to control access to and from the Solar Pond area, and to alleviate the traffic burden that would result from a significant number of large dump trucks entering the Protected Area. The estimated schedule for this activity, per finalization of the FY 95 work packages, is from 04/03/95 to 07/09/95.

Wackenhut Services, Inc. (WSI) participated in a working group. They provided input to the development of the Title II Design for the Vehicle Access Gate, detailed security concerns, and outlined vulnerabilities in March of 1994. A letter was sent on August 31, 1994 requesting that WSI provide personnel to staff the impacted area for the length of the construction effort. A written response was requested no later than September 16, 1994 for Fiscal Year 1995 planning purposes. No response was received.

Please provide a written response to this request for support no later than October 3, 1994. If you have any questions, please feel free to contact me, or Tim Kramer at X8505.
